Attachments: IARC fact sheet DRAFT 8.15.2019_ORD edits RPK.docx

Attached is my attempt to address ORD's comments. And, I got it to one-page.

+Debby

Please let me know ASAP how OPP wants to address especially in light of the 1-page limit which OCIR reminded us of just yesterday.

Hi. Please review and get back to me asap on ORD's edits to this IARC fact sheet. I need to put any revisions before Alex and David who are now reviewing the original version. Thank you.

Here are my IO's comments on the IARC one pager. Also, one other suggestion is to rename the title of the 1-pager. Since it focuses on the glyphosate and diazinon IARC activities, it may be helpful for that to be in the title.

Sure thing. We sent our fact sheets over yesterday morning. But we are looking at your edits and will update as appropriate.

FYI we might have one very small tweak to the IARC one pager, just getting it cleared.

Hi Again. Should our fact sheets be combined my AA and DAA would like to make sure that their edits are carried over. If your shop has any questions or problems with their edits (either with 2 separate sheets or 1 combined sheet) would you please let us know. Thank you.

Hi Samantha. I have broached the idea of combining fact sheets. For now we are sending ours forward with a note to OCIR to consider. Also, I am attaching some comments from my AA and DAA on your fact sheet. I shared it with them for context. I hope these are helpful. Sorry to send so late they just came in.

Sure thing. I'll add this one to our queue, but to be clear, you don't need this one today, correct? It's not listed as one of the priority one pager OCIR wants today, so I can include it in my non-priority batch.

Also, my management suggested that we combine our formaldehyde fact sheets into one. I've attached our latest draft (still going through review) – does combining sound good to you, and how would you like to go about that? I'm happy to just add some of the extra info we have in ours to yours if that works for you guys.

Hi Sam,

We have a new one on IARC that we wanted to run by ORD. This hasn't yet been run through OCSPP senior management but was added as a topic based on input from OCIR and our IO. Specifically, we're looking to capture EPA participation and/or any funding of IARC panels or other activities. Can you run this through your folks for input?

Thanks,
Kaitlin

Subject: Hearing Prep: One Pager on GAO IRIS TSCA

Hi Kaitlin and Mary,

I'm sure you guys are working on getting hearing prep one pagers together for the Administrator, and I just wanted to touch base on one of them. I'm not sure if OCIR will even want this one, but there was a one pager on the GAO Report on IRIS and TSCA in the zip file OCIR shared. It was under ORD's tab, but I believe that this actually came from OCSPP back in March/April for the budget hearings. I added some language from a recent letter that OCIR sent – did you guys want to take another look? If it's helpful, there was a comment from Susanna Blair in this doc (I deleted it b/c I addressed the comment by adding in the new language). Note that this has not been reviewed by ORD senior management.

-Sam
